We have a great variety of news this morning omne of hof stirring interest. The Helmers prived yesterday, the Eriessen with 4 days later dates, and Arabia with 5 days later. The condition of the breadshift man ket is unfavorable to hopes of better prices. It will be seen that a disposition is evinced in me British Padiament for an unicable certlement with this country, and the steakin, last hight, using new-roat Load Right would probably be sent over. The name of Crampton's dismissal

not not however, teached England. from the seems of mondes in Knusas, w ican that the border rollins have gathered in such force as to stand their ground against Col. planater and the U.S. troops, who are endeavor log at length to preserve peace. The miserable Shannon, at the command of his masters, has raised a storm that will not down at his bidding. The Northern K. N.s in the New York Con-

vention are deliberating whether or not they ought to sink all other issues in the one of painmount importance to the country. We have the legiming of another of M Prench's valuable letters from Egypt.

Senator Butler finished bir chivalric speech yesterday, again endorsing and approving of Brook- awards, and insuling Mr. Somner, and was applieded by follow-members of the Sensie! The German Republican press of this State speak in high terms of the late Convention, Our local and advertibing columns will repay a e celui perusal.

The Philadelphia Convention. All eyes are turning towards Philadelphia, as, eights years ago, they were furned in the cane direction. On Tuesday of next week, -the antaver say of Bunker Hill battle-the delegates from the people assemble there to consult for the prople's welfare in trying times, and we look with confidence upon the issue. As in those days of '76 personal views were left out of view, and each delegate acted for the good of the cause, -0 we believe it will be next week & Philadelphia. Not us the representatives of share-democracy-the subservient tool of Elivery extension -- came to Cincinnati, like dogs morning over our poor hone, the candidater boiling over with cagerness to gain advantage each over the others-not so, we say, do the represematices of Pane Thought, Pant Speech and FREE LABOR, go to Philadelphia; but they go. animated by a determination to look the whole field over-to sink personal preferences, and to place before the people the Max for the Time, whoever that man shall appear to be. Doubtloss every manin the tanks of the great Republican or Anti-Servery Extension party has his preference, among the brilliant list of men trusted. for their attachment to Freedom. Certainly we have ours; and we believe that Wisconsin to day would, so far as her votes go, vindicate the

Our patience by this success, whoever be our candidate. Let it be had got exhausted, and we were all ready for reberne in mind that there are mot electoral votes | bellion. At last his highness was announced. He was a fall muscular Nubian, at least six feet-two in height in his stockings, if he had them, of dark complexion, straight black hair, well formed features, and of commanding address. As we had stipulated in our contract that Hassan should pay the entaract fees, we felt no interest in the bargain, other than getting along as last as we could: This Reis's appointed by the Governor of Up-

In other words, as Falstail' says of the world, they are much given tolying. Hassan first told us i would take one hundred men at least to take over one boat.
